

Timothy Belloff

Timothy J. Belloff is the Senior Director of IT Support Services and Digital Learning at Arcadia University. A seasoned Information Technology professional with over 15 years of experience, Tim has dedicated his career to bridging the gap between complex technology and the diverse stakeholders within the higher education community. He is deeply honored and humbled to be included on the election slate for the NERCOMP Board of Trustees.

Professional Leadership and Impact

In his current role at Arcadia, Tim leads the Digital Learning team in the development and delivery of online programs while managing the University's Learning Management System. His leadership was instrumental in establishing the Information Technology Support Services group, where he successfully integrated User Services and Academic Technology Services to revitalize the university's commitment to campus-wide customer service.

Tim's influence extends beyond traditional IT infrastructure. He successfully launched Arcadia's Varsity Esports Program, serving as its inaugural director and overseeing the implementation of a state-of-the-art Esports Arena. His ability to align technology strategy with institutional priorities is further evidenced by his successful implementation of standardized classroom technology and five-year replacement cycles.

Commitment to the NERCOMP Community

Tim has been an active and engaged member of the NERCOMP community for years. His service includes:

- **Conference Leadership:** Serving on the NERCOMP Annual Conference Program Committee.
- **Knowledge Sharing:** Presenting on critical topics such as "Faculty Appointed Committees" at the 2019 NERCOMP Annual Meeting and "Making Virtual Reality a Reality" at the EDUCAUSE National Conference.
- **Professional Development:** Maintaining active memberships in both NERCOMP and EDUCAUSE to stay at the forefront of emerging instructional technologies.

Education and Vision

A lifelong learner, Tim is pursuing an Ed.D. in Educational Leadership at Arcadia University, focusing on the Leadership of Educational Technology. He holds a Master of Education in Instructional Technology and a Pennsylvania Teaching Certification,

providing him with a unique pedagogical perspective on technical challenges. He also shares this expertise as an Adjunct Instructor, developing and teaching courses that explore the intersection of technology, sociology, and gaming.

If elected to the Board of Trustees, Tim will bring a passion for staff development and a commitment to ensuring NERCOMP remains a dynamic resource for professional growth. He is eager to leverage his experience in strategic planning, budgeting, and stakeholder engagement to sustain the organization's trajectory of positive change and innovation. Tim is grateful for the consideration of his candidacy and looks forward to the opportunity to give back to the community that has supported his professional journey.
